Abolfazl Pourmohabbat

Resume

FRONT-END DEVELOPER

✉ test@test.com · ■ Tehran, Iran · ■ github.com/your-github · in linkedin.com/in/your-linkedin · ✈ t.me/your-telegram

SUMMARY

I have been doing programming for a while. You can count on me to gain your trust. Although I may have already done this with my resume and portfolio, let's build this trust with your own project.

SKILLS

HTML5 & Semantic Markup 95%

CSS3 & Responsive Design 92%

JavaScript (ES6+) 90%

TailwindCSS 88%

React (Basics) 75%

Git & GitHub 80%

Vite & Build Tools 78%

Mobile-First Design 90%

EXPERIENCE

2023 — Present

Freelance Front-end Developer

Self-employed

Building modern, responsive, and accessible web experiences for clients. Focus on performance, clean code, and delightful interactions.

2022 — 2023

Junior Web Developer

Personal Projects & Practice

Built multiple small projects to master HTML, CSS, and JavaScript fundamentals. Explored modern UI patterns and accessibility.

EDUCATION

Ongoing

Self-taught Front-end Path

Online courses & practice

Continuous learning through freeCodeCamp, Frontend Mentor, MDN, and real client projects.

SELECTED PROJECTS

E-commerce Dashboard

Modern admin dashboard for managing products, orders, and customers with real-time analytics.

HTML · CSS · JS · Chart.js

Weather Forecast App

Clean and minimal weather app using a public API, with animated icons and 7-day forecast.

HTML · CSS · JS · API

Task Manager PWA

Offline-first task manager that installs as a PWA. Drag-and-drop, categories, IndexedDB.

HTML · CSS · JS · IndexedDB · PWA

Portfolio Generator

Simple tool that turns a JSON config into a beautiful printable portfolio page.

HTML · CSS · JS

References available upon request.
